# KNOW

*Your Child's  
home away from home*

Apart from their home, a child spends maximum time in school. Hence, school is very often called a child's home away from home. At NES Junior, we strive to provide the children a home-like experience with friendly environment, secure infrastructure and supportive teachers. We ensure that each child is looked after individually and the care that they receive makes them feel like they are home.

We, at NES Junior, believe that education is a process of self-development. Following this belief, we have imparted education through which character is formed and intellect is expanded. We abide by a curriculum that is child-friendly which is updated and modified regularly to suit the individual nature of a child. Further, we focus on child-centric learning in which children are involved in their journey of learning. We create innovative and exciting learning experiences for the children to ensure that their learning is effective. Finally, our enriching curriculum ensures the holistic development of the children, so that they can reach their full potential academically, physically, as well as spiritually.

Therefore, we believe that NES Junior, with its well-organized learning environment, reliable teachers, and extensive curriculum, is the right place for your child to kick-start their journey towards excellence.

## Motto : Dare To Know

The emblem of NES, portraying a swan in flight, depicts the motto of the school—Dare to Know. It symbolizes our students' undeterred willingness to spread their wings in search of knowledge. The motto sums up the philosophy of the school that believes in enabling the students to take flight into the vast world of knowledge, wisdom and learning.

## Vision :

To nurture each child and enable them to become confident, responsible and life-long learners, who aspire to achieve their full potential.

## Mission :

To provide a stimulating early learning experience which promotes each child's social, emotional, physical, and cognitive development and builds a foundation for life-long learning.

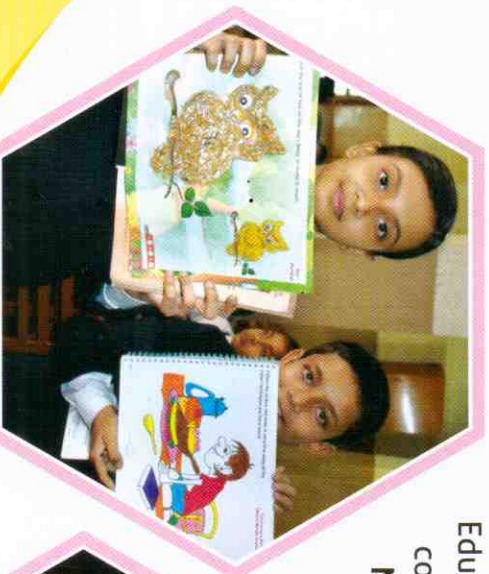

## The World of NES :

National English School is a co-educational institution established in 2000 at **VIP Road, Baguiati**. Renowned philanthropist, Sri Sudhir Kumar Saha, founded the school with the aim to prepare the youngsters of the nation to embark on a journey of academic and personal excellence. We are affiliated to the CISCE, New Delhi and provide a creative curriculum which reflects the interests of our learners.

Over the years, the world of NES has expanded into more branches, to ensure that maximum number of children can benefit from the extensive learning that the school provides. **National English School, Rajarhat** was inaugurated by Dr. Asim Dasgupta, Hon'ble Finance Minister, Govt. of West Bengal in February 2008. **National English School (Primary)**, Desbandhu Nagar Branch has obtained a NOC from the Dept. of

Education, Govt. of West Bengal. In the year 2017, the NES Educational Trust has come up with an avantgarde facility for teacher training at Rajarhat, christened **National College of Education** set in a modern 65 cottahs campus, the B.Ed.

and D.El.Ed college, approved by NCTE, Ministry of HRD, Govt. of India, affiliated to WBUTTEPA and WBBPE. The foundation stone laying ceremony of another branch, **NES World School**, was recently held at Rajarhat, and Kaikhali that aims to spread education through the exciting and innovative use of technology.

# The Journey at NES Junior :

NES Junior offers age-appropriate developmental milestones and takes the children on a journey towards excellence in a fun and exciting learning environment.

## Nursery (3+ years) :

At the nursery level, we focus on developing the learners' literacy skills, numeracy skills & general awareness that will enhance their creative abilities, communicational skills and critical thinking skills, through a multi disciplinary approach and hands-on experiences.

## L.K.G. (4+ years) :

Our L.K.G program takes the children's learning a notch further, as it works on developing the children's pre-reading and pre-writing abilities, through art, music, drama, communication and interaction, that ensure continuous development of the children's creativity, imagination and curiosity.

## U.K.G. (5+ years) :

As the children step into the U.K.G. program, they are taken through concrete experiences which enable them to enhance their listening, speaking, reading, and writing skills, along with their Mathematical knowledge.

## Classes I to V (6+ years onwards) :

As the children progress toward the higher classes, they continue to explore their communication abilities and problem-solving skills and are given continuous exposure to a variety of learning experiences that prepare them for the challenges of the higher classes.

## Holistic Learning and Development

At NES Junior, holistic learning delves deep into the trinity of mind, body, and soul, as all the aspects of development of a child are brought into consideration.

**Emotional Skills :** NES Junior involves the children in plays, exercises, storytelling, circle time, to enable them to express their feelings, get along better, show empathy for others, care more about the environment and feel happier.

**Physical Skills :** While the students of NES Senior are known for bagging medals and awards for their exceptional performances in Sports, it is NES Junior from where their journey starts. NES is known for its participation in **KHELO India** and **School Games Federation of India**. Hence, we start preparing our children at NES Junior, from an early age, to participate and win in **State Level Competitions** held under the **Council of ISCE** and strive to take them forward to **National Level Competitions**.

**Intellectual Skills :** At NES Junior, we ensure the maximum intellectual development of our students by encouraging them to play board games, brain games & puzzles, while motivating them to come up with original ideas of their own.

**Communication Skills :** At NES Junior, we boost the development of communication and interpersonal skills in our students, motivating them to pick up a conversation and sustain it for a considerable time-period, through several interactive activities and events like Elocution and Roleplaying.

**Social Skills :** One of the primary learnings that our children get from an early age, is how to interact with others effectively. A varied range of group activities activates each child's ability to express themselves spontaneously, which, in turn, hones their language skills, along with their speaking abilities.

## The Curriculum to Happy Learning :

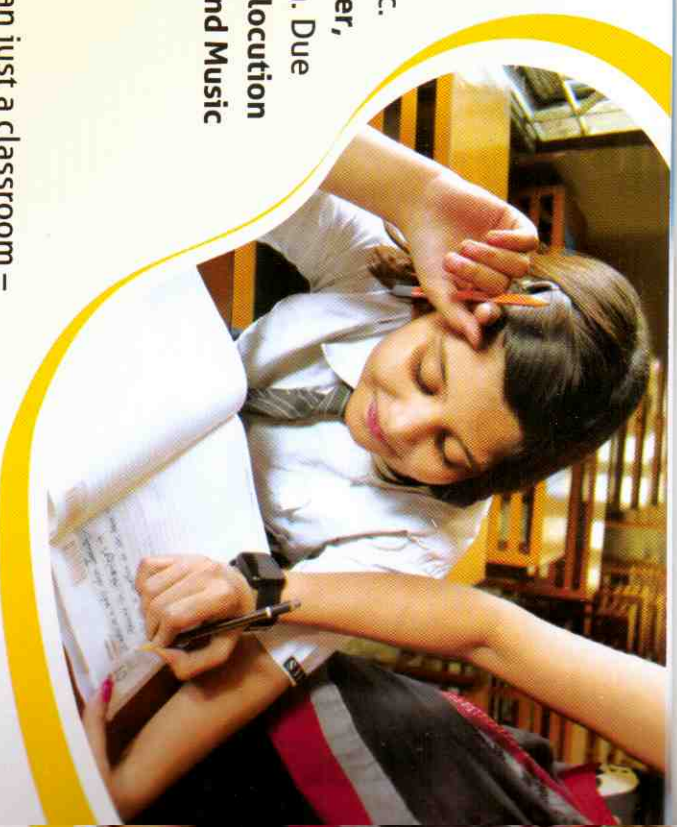

At NES Junior, we combine learning with happiness, as we adopt innovative approaches to learning through **games, rhymes and songs, activities, storytelling, puppeteering**, etc. Although the curriculum focuses on regular subjects like **Mathematics, Science, Computer, Social Science, Language Learning**, it also emphasizes beyond the formal education. Due emphasis is given on students' **Speaking Skills and Communication Skills**, due to which **Elocution** is included in the curriculum. **Audio Video Activities, Physical Education, Art and Craft and Music** are also covered in the flexible curriculum that is provided at NES Junior.

## Child-friendly Learning Environment :

We, here at NES Junior, provide our children with a learning environment that is more than just a classroom – it is a space in which students feel safe and supported in their pursuit of knowledge, as well as inspired by their surroundings.

- **Trained Teachers and Staff :** We only recruit staff and teachers who are trained in handling our children with care and can provide them with the secure and positive environment that is conducive to learning.

## NES Senior : A Glimpse into your Child's Future :

- **Easy Transfer** : NES Junior offers the unique facility of direct admission of the students from the Primary section to the Senior section, which guarantees continuity of the children's development in familiar surroundings.
- **Flexible Curriculum** : The Senior School prepares the students to appear for I.C.S.E. Examinations, conducted by the Council for Indian School Certificate Examinations, New Delhi. We have I.S.C. classes with all the three streams of Science, Arts & Commerce Subjects like **Artificial Intelligence and Robotics** have also been introduced following the **National Education Policy 2020**.
- **Experiential Learning** : The school offers unique learning experiences to students through a variety of laboratories – **Science Laboratories, Computer Laboratories, Home Science Laboratories, The Literary Club** and the **Cultural Club** in the school ensure that students are always involved in co-curricular activities, without which, holistic development remains incomplete.

- **E-learning** : The Senior School is ready to face all the challenges with its e-learning program. It introduced **online classes on Microsoft Teams** during the pandemic, along with regular **audio-visual classes**, which turned out to be a great success. The **Green Campus** – a unique initiative of the school, helps the guardians to stay in touch with their child's learning and development

## NES Junior : The right start for Your Child

The children of the school are at the heart of the vision that takes the school forward, as we hope and work for their well-being, learning and development. Therefore, we can ensure you that NES Junior is indeed the right start for you child.
